

Bonamy Finch Research Solutions

Research Manager

Profile

We are looking for a **confident, energetic, and ambitious** Research Manager to join our team. We are a diverse group of psychologists, marketers, analysts and project managers. Our common aim is to use our shared experiences to provide intelligent strategic guidance to our clients. We are committed to providing clients with clear, captivating deliverables.

We have two main teams: Advanced Analytics and Research Solutions. The successful candidate will join our Research Solutions team, working primarily on full service assignments but also frequently with the Advanced Analytics team to design studies (e.g. segmentation, conjoint) and/or conduct specific pieces of analysis (e.g. segmentation profiling).

Much of our work requires us to immerse ourselves in a client's question. This might be in order to develop a segmentation or conduct in-depth analysis on a data set. We are seeking someone who can demonstrate a genuine interest in getting under the skin of an issue, who is able to focus and who has an **inquisitive** side to their personality.

We are a senior team all of whom have direct contact with clients. We are looking for someone who is **comfortable in the presence of clients** and who can engage with them. They should be confident taking a brief, discussing potential solutions, and handling unexpected issues/problems. We are not looking for someone who wants or will be satisfied with a 'back office' role.

As a small agency, our executives carry out every aspect of a project, from gathering supplier costs to writing proposals to designing a study to writing a DP spec and presenting the findings. So we are looking for someone who **enjoys hands on involvement throughout the research process** and who accepts that, whilst our team collaborates and supports one another, opportunities for delegation will be limited.

Skills

The successful candidate must be a **highly capable project manager and confident in meetings** (shrinking violets need not apply). Attention to detail and ownership for the successful delivery of a project are both critical. Our belief is that client relationships are built through continuous delivery of outstanding research and we are looking for a candidate who shares that sentiment, and recognises the critical role that successful project management plays.

We are looking for someone who can **work autonomously**, is well organised, able to prioritise, stays calm under pressure and is flexible when needed. **Being methodical and able to plan** are therefore highly desirable.

Our work mix consists of a mix of continuous programmes and ad hoc studies that require bespoke solutions. We are ideally looking for someone with a strong background in **both continuous and ad hoc research**. The successful candidate's experience should not be limited to only off-the-shelf ad hoc research or only continuous tracking surveys.

In terms of techniques, our clients' needs are varied and so we are ideally looking for a candidate with **at least some experience of different practice areas** – innovation (e.g. concept development), branding, pricing (e.g. conjoint) and consumer understanding (e.g. segmentation). Some of our work requires us to explain relatively complex techniques to clients in simple ways and therefore a high level understanding of and ability to explain when we might use techniques such as MaxDiff is desirable.

The nature of our business (working with other agencies as well as directly with corporate clients) means that we work across many industry sectors. We are looking for someone who has been **exposed to different sectors** (ideally FMCG, consumer durables, financial, B2B, leisure), and who is able to apply their knowledge to different categories.

We pride ourselves on the **quality of our deliverables**, and want someone who shares our passion for synthesising information and communicating it in a clear and compelling way. Design skills and/or proficiency in PowerPoint (and/or other presentation packages) are a definite advantage.

Specific proficiencies

High Proficiency in Excel, Powerpoint, Word. Experience of SPSS a plus.

Experience

We are flexible in terms of how experienced the candidate should be (fitting the criteria above is our priority) – but as a range we are thinking broadly between 3 and 6 years gained in either or both agency/clientside

Remuneration

Will depend on experience plus aptitude. We will offer a good basic salary, plus participation in our company bonus scheme, plus company pension contribution.

We have very high staff retention, and are a friendly, collaborative team. We have previously been nominated for the MRS Best Place to Work award. The successful candidate can expect promotion based on performance.

This is a full time position with hours from 9am – 5.30pm Monday to Friday

Depending on the client, there will be the occasional need for travel within the UK, as well as visiting clients overseas, normally for no longer than 1-2 nights per trip.

Location

Bonamy Finch is based in Cobham, Surrey and so the successful candidate must be willing to commute to our office daily.

The office is 25 minutes walk from the local train station (two trains an hour to/from Waterloo via Surbiton and Clapham Junction). Alternatively, we are based just 10 minutes from Junction 10 of the M25.

Equal Opportunities

Post holders must at all times fulfil their responsibilities with regard to our equal opportunities policy and equality laws.

Health and Safety

All post holders have a responsibility, under the Health and Safety at Work Act and subsequently published regulations. Employees as individuals of the Company have a statutory duty to co-operate together to promote health and safety best practice.

How to apply

Please send your CV and a covering letter by email to Peta Poyser, Office Administrator – info@bonamyfinch.com
